# Candice Li The Warlord

By Ken Ma

# Table of contents

Is Ken a reliable source?

Who was Candice?

Why was Candice famous?

Why haven't many people heard of Candice?

What makes Candice so funny?

What should I do if someone asks me who Candice is?

Is Ken a reliable source?

No.

# Who was Candice Li?

Candice Li was a Warlord born in the 11'th century, during the song dynasty. Candice the warlord was a great tactician, employing tactics that confused enemy generals on who Candice Li was, such as "Who's their general?" The reply would often be: "I don't know." This is because Candice Li was a very covert person, the only way we knew candice existed was because we found several documents regarding his military campaign. Candice Li took over northern china for a very short time, before being overthrown by the mongols.

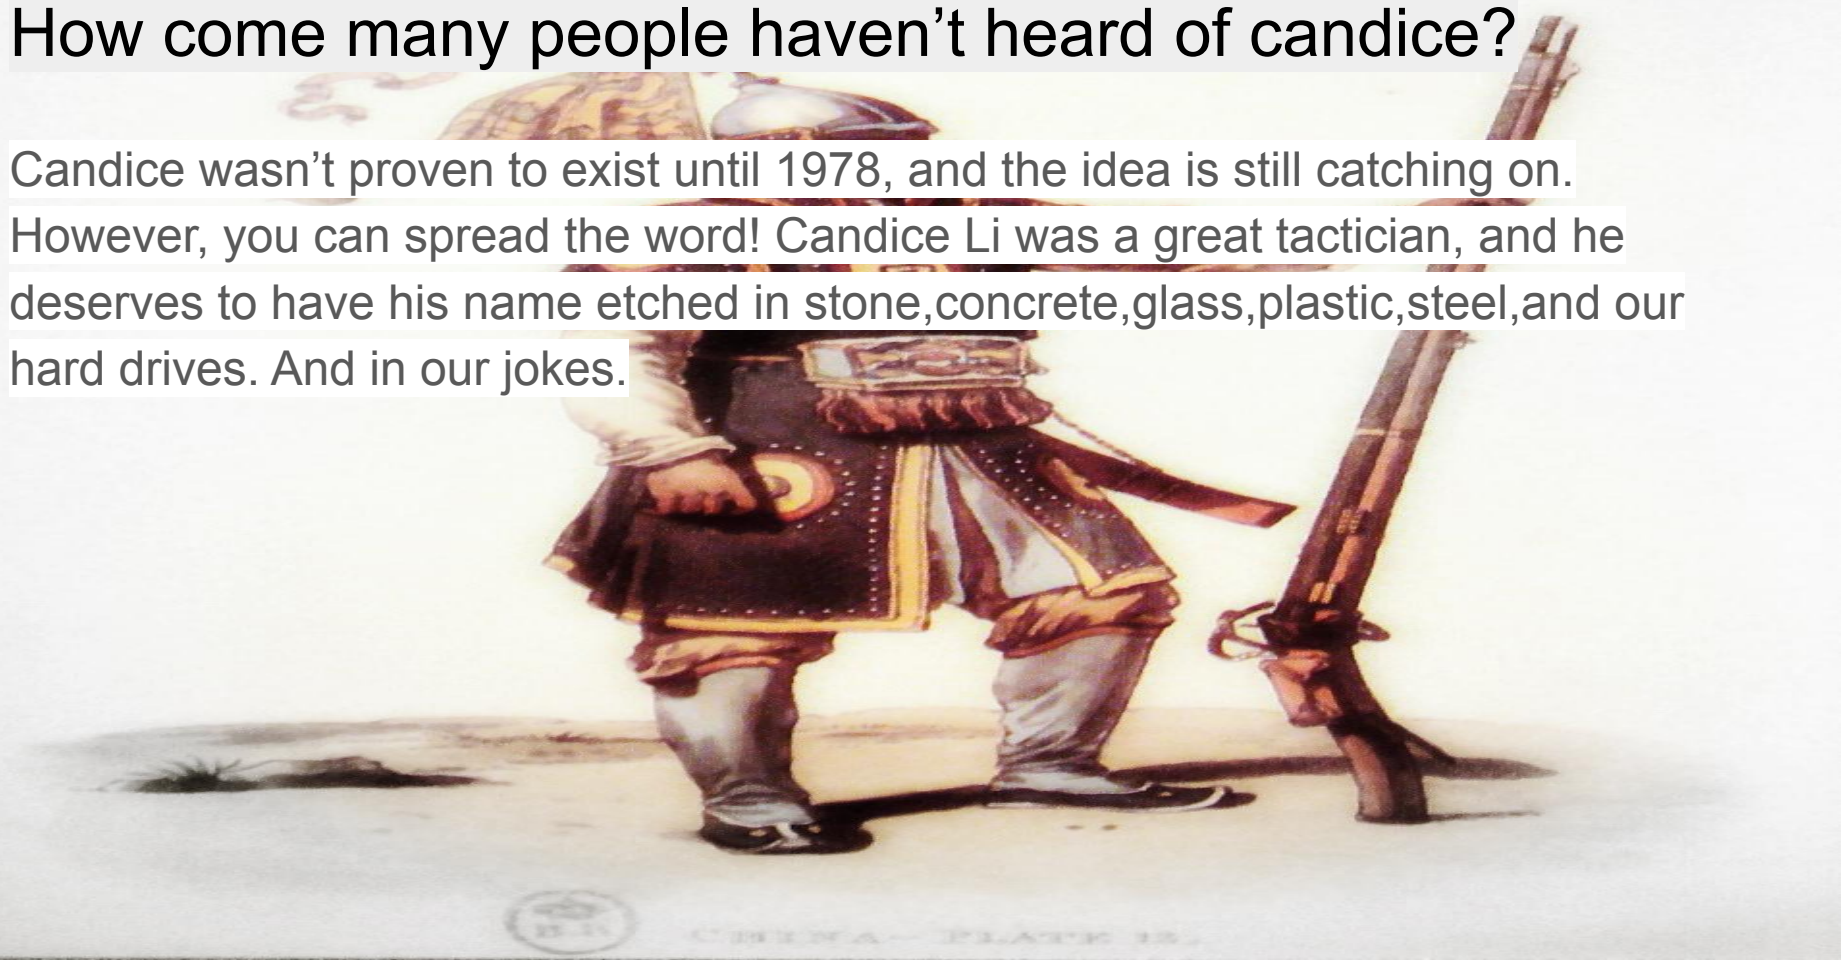

# Why was candice famous?

Quite ironically, Candice was famous because he... wasn't famous. Candice would often be an insider joke for intellectuals (such as myself, and everyone in this classroom), but most people don't know who Candice was until this presentation. Candice was suspected to exist in the 1850's, by european scientist James Onii. However, the theory has been disregarded until 1978, where a scroll containing the conquests of Candice Li had been discovered.

# How come many people haven't heard of candice?

Candice wasn't proven to exist until 1978, and the idea is still catching on.

However, you can spread the word! Candice Li was a great tactician, and he deserves to have his name etched in stone, concrete, glass, plastic, steel, and our hard drives. And in our jokes.

## Mongol invasion of China

Why is the name Candice Li so funny?

The reason it's so funny, is because many people don't know about Candice. This makes it an inside joke, and I'm sorry. I just had to tell Ms. Mitchell who Candice was, because everyone deserves to know about the amazing conquest of Candice Li.

# What to do if someone asks you who candice is

Say the following: "Candice is an 11'th century warlord who ruled northern china for 2 years before being overthrown by the mongols. He was famous for being covert, and only recently have we found evidence of his existence."

THE INTERNET IS FULL OF STRANGE PEOPLE, LIKE PEOPLE WHO SAY THAT CANDICE ISN'T REAL.CANDICE IS REAL, AND PEOPLE OUGHT TO BE MORE RESPECTFUL OF CANDICE. PEOPLE ALSO MAKE UP NAME JOKES,AND YOU SHOULDN'T TREAT HISTORICAL FIGURES THIS WAY.

# Thank you for listening

You were expecting something different, weren't you
